Testing Scenarios

1. User inputs 3 things into the to-do list for a later date. Users type intended tasks into a bar at the top of the page and then clicks on add. User quits.
2. User seeks to remove an item from a to-do list. User navigates to the list, clicks the trash can icon listed on the item, and confirms that the item is to be deleted. The item is deleted and the user leaves.
3. User seeks to create a new to-do list. User opens the application, selects the "New list" button, inputs the name of the new list, and selects "Create." User navigates to the new list.
4. User edits a deadline for when his task is due. User clicks on the clock icon in the task to get to this page and edits the date as desired. User quits.
